FROM THE DESK OF Managing Director

With rapid globalization and foreign direct investment inflow into the Indian automotive industry, the auto components sector is set to create newer opportunities and verticals for further growth.

Dear Stakeholders,

As we reflect upon the past financial year, I would like to express my gratitude and extend warm wishes to all. I hope you and all your loved ones are keeping well and staying safe!!

The FY 2021-22 has gone by with several challenges right from Covid-19 second wave affecting the first and second quarter of the year, followed by increase in geopolitical tension between Ukraine and Russia which eventually lead to increase in prices of raw materials and constraints in global supply chains. Despite the challenging global situation, we remained focused about our market opportunities and providing the best to our customers.

Economic damage from the conflict has contributed to a significant slowdown in global growth in 2022 and triggered inflation across the globe, which is expected to remain elevated for some time to come. Increasing fuel and food prices, coupled with

shortage of essential commodities, have adversely affected large sections of vulnerable populations in low-income countries.

INDIAN AUTOMOTIVE INDUSTRY AND FUTURE PROSPECTS

As per the data and reports released by Society of Indian Automobile Manufacturers (SIAM), in F.Y. 2021-22, total number of vehicles manufactured by the industry are 22,933,230 including passenger vehicles, commercial vehicles, three wheelers, two wheelers and quadricycles with the growth of 1.23% over the previous year (2,26,55,609 vehicles). The production graphs indicate that there is growth in all categories from passenger vehicles, commercial vehicles, three wheelers except decline in two wheelers segment.

Total sales including both domestic and export, the industry sold a total 2,31,30,842 vehicles in F.Y. 2021-22; out of which passenger vehicles

growth was 17.06% (36,47,374 vehicles). Further, in commercial vehicle, there is a growth of 30.70% (8,08,863 vehicles). Scooters sales declined by 7.53% (43,59,406) while Motorcycles registered a marginal growth of 0.02% (1,30,66,628 vehicles) and moped registered a decline of 22.73% (4,83,396 vehicles), taking the total two wheeler sales decline to 2.69% (1,79,09,430 vehicles) for the year.

During the year under review, we continued to leverage operational efficiency to navigate through the challenges faced by the auto industry. Our primary focus has been to create a very strong order book, elevate operating efficiency, strengthen free cash flow and work towards disruptive technologies. We delivered a consolidated revenue of Rs. 47,338.14 Lakhs, a decrease of 3.57% from previous year with an EBIDTA for the year stood at Rs. 7544.42 Lakhs with 16.08% EBIDTA margin. Our Profit/Loss After Tax from continued operations for the year stood at Rs. (-)1606.03 Lakhs as against Rs. (-)2452.60 Lakhs in FY21.

The Fiscal year 2021-22 was a remarkable period of learning and delivering. The first Quarter witnessed the second Covid-19 wave, which shook the entire nation. But in spite of all the challenges, your Company continued to deliver. The year under review has been about change, resilience, about resetting priorities and the drive towards the achievement of our dreams. We navigated through a difficult environment and unforeseeable circumstances during the more intense second wave of the pandemic. Your Company proved its resilience with prudent leadership and the tremendous hard work of our colleagues through FY 2021-22.

The Company continues to focus on cost reduction efforts and make improvements in operational efficiencies as well as value engineering activities to improve margins. Our state-of-the-art plants in

Haridwar, Binola, Bangalore and Rohtak are capable of manufacturing world class products.

To make up the gap, your Company, in addition to tapping new verticals, will leverage its position by building its relationships with its existing and new customers and focus on product development. Some new products are also under development in the field with the Company's expertise in gear & transmission, steering Products etc. manufacturing.

We are very well positioned to combat the technological shift owing to a change in customer requirements, emerging market trends, and even government regulations. As a long term strategy we are working on development of Axles for E-Rickshaw, 3-wheelers, Tractors etc. this will help us do forward integration.

With our strategic investments in place and priorities defined, I am confident that our ideas will keep contributing to the next generation of electric mobility and we will continue to Innovate, and Lead.

Before concluding, I would like to place on record my sincere gratitude to the entire SHIVAM Family for their dedicated and relentless hard work in the year despite all odds. My sincere thanks to all our customers, our supply chain partners, our bankers, and my Board colleagues for their wise guidance from time to time. I am confident that this journey will continue to be equally exciting and rewarding as we move ahead.

Stay Informed! Stay safe!

Thank you.

Managing Director

ABOUT THE Company

Shivam Autotech Limited, is one of the largest and most renowned manufacturers of transmission gears and shafts in India. The company has been serving a large number of automobile manufacturers as their strategic and supply chain partners for the past 20 years. Since inception, the Company has undergone a multi-phased development and evolution journey.

Being an integral part of the 'Make In India' initiative of the government, we see ourselves as a global manufacturing solution in the auto component segment, and on this note we are proud to mention that apart from 2 wheeler components, we diversified our manufacturing into various verticals and have developed and customized products for automobiles, off road vehicles, aerospace and initiated exports too.

Headquartered in Gurugram, Haryana, the company at present employs 3000+ people and qualifies its capabilities to grow and sustain in the fast changing auto component business environment.

The Company's principles: Respect, Integrity, Passion, and Excellence, form the core of its strong foundation and commitment. Being a Munjal Group entity, these principles act like the guiding light that have enabled the Company to widen its spectrum of offerings.

The Company strives to build a high-performance organization supported by the trust of all stakeholders and envisions strengthening its presence by solidifying its global footprints.

With experience and expertise par excellence, the company values its customers by delivering value for money both in the national and international auto component markets. Being a leader within the industry having profound experience of two decades, the company manufactures a comprehensive range of auto components and accessories that primarily include transmission gears, transmission shafts, alternator components, starter motor components, magneto components, steering components and various precision engineering components.

Today, the company's infrastructure spans pan India across 4 strategic locations including Gurgaon, Haridwar, Bengaluru and Rohtak. An IATF 16949, ISO 45001 & ISO 14001 Certified Company, Shivam Autotech's Unique Selling Proposition lies in the fact that it is among the very few auto component manufacturers in the country today that makes use of the Near Net Shape Technology for Cold and Warm Forging.

Shivam Autotech Limited employs a stringent quality policy that includes practices like 5S, Kaizen and Poka Yoke as an intrinsic part of its work culture. With robust in-house design and R&D capabilities and continuous collaboration with worldwide manufacturing leaders who are technologically advanced, we have been

able to build capacities and capabilities to create indigenous customized products to meet our customer's need.

All these unique attributes not only set the company apart in India, but also bring an international recognition to it.

16. Central Depository Services (India) Limited ("CDSL") will be providing facility for voting through remote e-Voting, for participation in the 17th AGM through VC/OAVM Facility and e-Voting during the 17th AGM.
17. Instructions for e-voting and joining the AGM are as follows:

A. Instructions for Voting through electronic mode

- i. In compliance with the provisions of Section 108 of the Act, read with Rule 20 of the Companies (Management and Administration) Rules, 2014, as amended from time to time, Secretarial Standard on General Meetings (SS-2) issued by the Institute of Company Secretaries of India ("ICSI") and Regulation 44 of the SEBI Listing Regulations read with Circulars as mentioned above, the Members are provided with the facility to cast their vote electronically, through the remote e-voting services provided by CDSL, in respect of the businesses to be transacted at the 17th AGM and facility for those Members participating in the 17th AGM to cast vote through e-Voting system during the AGM.. The manner of voting remotely by members holding shares in dematerialized mode, physical mode and for members who have not registered their email addresses is provided in the instructions for e-voting section which forms part of this Notice.

- ii. The remote e-voting period begins on 09:00 A.M. IST on Sunday, September 25, 2022 and ends 06:00 P.M. IST on Tuesday, September 27, 2022. During this period, Shareholders' of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date Wednesday, September 21, 2022, may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter. Those Members, who will be present in the AGM through VC / OAVM facility and have not cast their vote on the Resolutions through remote e-voting and are otherwise not barred from doing so, shall be eligible to vote through e-voting system during the AGM.
- iii. A person who is not a Member as on the cut-off date should treat this Notice of 17th AGM for information purpose only.
- iv. Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020**, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholder's/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.
- v. In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to **all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants**. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.
- vi. In terms of **SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020** on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

Pursuant to above said SEBI Circular, Login method for e-Voting and joining virtual meetings **for Individual shareholders holding securities in Demat mode** is explained herein below:

Type of shareholders	Login Method
Individual Shareholders holding securities in Demat mode with CDSL	<ol style="list-style-type: none"> 1) Users who have opted for CDSL Easi / Easiest facility, can login through their existing user id and password. Option will be made available to reach e-Voting page without any further authentication. vii. The details of the process and manner for remote e-voting and joining virtual meetings for **Physical shareholders and shareholders other than individuals holding in Demat form** are explained herein below:

- a. Visit the e-Voting website of CDSL by typing the following URL: www.evotingindia.com.
- c. Once the home page of e-Voting system is launched, Click on "Shareholders" module.
- c. Now Enter your User ID
 - For CDSL: 16 digits beneficiary ID,
 - For NSDL: 8 Character DP ID followed by 8 Digits Client ID,
 - Members holding shares in physical form should enter Folio Number registered with the Company.
- d. Next enter the Image Verification as displayed and Click on Login.
- e. If you are holding shares in demat form and had logged on to www.evotingindia.com and voted on an earlier voting of any company, then your existing password is to be used.
- f. If you are a first time user follow the steps given below:

	For Physical shareholders and other than individual shareholders holding shares in Demat.
PAN	Enter your 10 digit alpha-numeric PAN issued by Income Tax Department (Applicable for both demat shareholders as well as physical shareholders). Members who have not updated their PAN with the Company/Depository Participant may call CDSL's toll free number 1800225533.
Dividend Bank Details or Date of Birth (DOB)	Enter the Dividend Bank Details or Date of Birth (in dd/mm/yyyy format) as recorded in your demat account or in the company records in order to login If both the details are not recorded with the depository or company please enter the member id / folio number in the Dividend Bank details field as mentioned in instruction (c)

- g. After entering these details appropriately, click on "SUBMIT" tab.
- h. Members holding shares in physical form will then directly reach the Company selection screen. However, members holding shares in demat form will now reach 'Password Creation' menu wherein they are required to mandatorily enter their login password in the new password field. Kindly note that this password is to be also used by the demat holders for voting for resolutions of any other company on which they are eligible to vote, provided that company opts for e-voting through CDSL platform. It is strongly recommended not to share your password with any other person and take utmost care to keep your password confidential.
- i. If demat account holder has forgotten the login password, then enter the User ID

and the image verification code and click on Forgot Password & enter the details as prompted by the system.

- j. After successful login, you will be able to see the Home page of e-Voting. Click on the EVSN for the "Shivam Autotech Limited" on which you choose to vote.
- k. On the voting page, you will see "RESOLUTION DESCRIPTION" and against the same the option "YES/NO" for voting. Select the option YES or NO as desired. The option YES implies that you assent to the Resolution and option NO implies that you dissent to the Resolution.
- l. Click on the "RESOLUTIONS FILE LINK" if you wish to view the entire Resolution details.
- m. After selecting the resolution, you have decided to vote on, click on "SUBMIT". A confirmation box will be displayed. If you wish to confirm your vote, click on "OK", else to change your vote, click on "CANCEL" and accordingly modify your vote.
- n. Once you "CONFIRM" your vote on the resolution, you will not be allowed to modify your vote.
- o. You can also take out print of the voting done by you by clicking on "Click here to print" option on the Voting page.
 - (i) If a demat account holder has forgotten the login password then Enter the User ID and the image verification code and click on Forgot Password & enter the details as prompted by the system.
 - (ii) There is also an optional provision to upload BR/POA if any uploaded, which will be made available to scrutinizer for verification.
- p. Shareholders can also cast their vote using CDSL's mobile app "**m-Voting**". Android phone users can download the app from Google play Store. Apple and Windows phone users can download the app from the App Store and the Windows Phone Store respectively. Please follow the instructions as prompted by the mobile app while remote e-voting on your mobile.

II. INFORMATION ABOUT THE APPOINTEE:

a. Background details:

Mrs. Charu Munjal is the Whole Time Director of Shivam Autotech Limited since June, 01, 2013. She has done Diploma in Textile Designing from Banaras Hindu University.

b. Past remuneration:

For the period from 01 April 2021 to 31 March 2022, Mr. Charu Munjal has drawn a remuneration of Rs.80.06 Lakhs.

c. Job profile and his suitability:

She has gained considerable experience in creative designing and in marketing field. Her experience and energetic approach in marketing related functions enables the Company to actively pursue and seize new Business Development opportunities. Considering her knowledge of various aspects relating to the Company's affairs and long business experience, the Board of Directors is of the opinion that for smooth and efficient running of the business, the services of Mrs. Charu Munjal should be available to the Company.

d. Remuneration: Comparative remuneration profile with respect to industry, size of the company, profile of the position and person (in case of expatriates the relevant details would be with respect to the country of his origin).

Mrs. Charu Munjal has vast experience in Marketing. She has rich experience of handling various areas of business and is well known in Automotive Industry. Mrs. Charu has begun a lot of new initiatives in the Company since she joined as Executive Director. BOARD'S Report

Dear Members,

Your Directors are pleased to present before you, the 17th Annual Report on the business and operations of the Company together with the Audited Financial Statements of the Company for the Financial Year ended March 31, 2022.

Financial Highlights

The Company's financial performance, for the year ended March 31, 2022 is summarized below:

Rupees (in Lakh)

Particulars	For the year ended	
	March 31, 2022	March 31, 2021
Gross Sales & Other Income	47338.14	49,092.82
Earnings before Interest and Depreciation	7,544.42	8,103.24

Provision for Taxation (Deferred & Current)	-	(200.04)
Profit/(Loss) after Taxation	(1606.06)	(2,252.56)

State of Company's Affairs and Future Outlook

During the financial year 2021-22, revenue from operations was Rs. 47,338.14 lakh as compared to Rs. 49,092.82 lakh in 2020-21, registering a decrease of 3.57%.

The Company remains optimistic about growth in the next financial year, as a credible recovery in the Indian economy and a positive momentum towards personal mobility is likely to further strengthen the demand for two-wheelers. The wide range of best-in-class products and consistent alignment of new technologies and services will also ensure Company's strong growth impetus. Further, the Company is constantly working on new business models and aims to go beyond the automotive sector.

Business Overview

With the increase in growth rate of Customers, the Company is expecting to maintain a healthy growth in its scale of operations and widen its geographical reach. It is also expected to add new customers in the upcoming financial

years. Cutting edge technology on a sustained basis is the touch stone of the manufacturing excellence of the Company. The Company is working meticulously towards mitigating its concentration risk by diluting the percentage of the concentration by increasing sales to other customers or entering new markets which is principally the focus area. With the state of art manufacturing facilities, the Company is functioning successively to strengthen its Customer Base. Hero MotoCorp Limited (HMCL) is the major customer. The Sales to other Customers like Hilti, Mando and Others etc. has also increased compared to last year. The Company has during the year, developed the design of Axles for EV based three-wheeler. Business Risk Management

The Company has in place a robust risk management framework that identifies and evaluates business risks and opportunities. The Company recognises that these risks need to be handled effectively and mitigated to protect the interests of the shareholders and stakeholders, to

achieve business objectives and create sustainable value and growth. The Company's risk management processes focus on ensuring that these risks are promptly identified and a mitigation action plan is developed and monitored periodically to ensure that the risks are being addressed accordingly. The Company's risk management framework operates with the following objectives:

- Proactively identify and highlight risks to the right stakeholders
- Facilitate discussions around risk prioritisation and mitigation
- Provide a framework to assess risk capacity and appetite;
- develop systems to warn when the appetite is getting breached

Last year, the lockdown imposed significant hardships on the entire human race and tested their survival. Many businesses were forced to adopt varied cost cutting measures. However, your Company also ensured investments on employee well-being measures. Your Company came up with a comprehensive risk mitigation plan and a dedicated team to manage Covid-19 risk. Some of the risk mitigation steps were:

- frequent interactions with dealers, suppliers, investors so that the ecosystem remained motivated;
- proactive announcement of Work from Home policy, and an increased hygiene level at the workplace;
- manufacturing at all the plants was proactively suspended, however with preparedness to restart at a short notice;
- multiple communications sent to employees on end user awareness due to increased risk of cyber-attacks.

With a multi-sourcing strategy plan, your Company was able to successfully manage this risk.

Further the Board has also identified the following risks:

Over dependence on few customer base, imposition of strict environmental / safety / regulatory regulations intensifying competition, declining margins, increase in raw material prices, economic downturn, inappropriate addressing of customer grievances, and risk of natural or manmade disasters.

In order to mitigate these risks, the Company has adopted the implementation of the risk management policy focusing on the elements of risks which in the opinion of the Board may threaten the existence of the company. We through qualitative products, regular improvement in productivity, controls over overhead and Labour cost, internal audit of environmental safety and regulatory compliance, IATF 16949 certification, TPM certification, capturing customer

complaints and response to them, have effective risk mitigating plans.

Further, pursuant to Regulation 21(5) of SEBI (Listing Obligation and Disclosure Requirements), Regulations, 2015, the Company has dissolved the Risk Management Committee, and the Risk Management System/policy of the Company is then to be looked after by the Audit Committee. The details of the same are mentioned in the **Annexure B** to this Board's Report.

ANNEXURE 'A' TO BOARD'S REPORT

MANAGEMENT DISCUSSION & ANALYSIS REPORT

Industry Structure and developments

The global GDP is expected to grow by 4.4% in 2022, a downtick from the 5.9% growth projection made in 2021. With the ebbing of COVID-19 pandemic, the economy is expected to maintain a healthy growth pace in 2022. The global economy, in the absence of most pandemic-related restrictions, ended on a strong note with an accelerated economic performance towards the end of FY 2020-21. However, with the pandemic continuing, the global recovery faces multiple challenges. The rapid spread of Omicron and Delta variants resulted in renewed mobility restrictions in many countries, increasing labor shortages. Supply disruptions continued hampering activities across various channels, contributing to higher inflation. This resulted in additional pressures amid increased demand, and food and energy prices. Moreover, record-breaking debt, and rising inflation, also continued constraining the ability of many countries to address these renewed disruptions. Adding to this, heightening geopolitical tensions and ongoing climate emergency are expected to further aggravate the anticipated global risks.

FY 2020-21 was among the most challenging years in the Indian Automotive industry's history with the outbreak of COVID-19 putting a spanner in the works. This brought the Automobile industry – already facing headwinds of a slowing down economy – to a standstill with the nationwide lockdown in April 2020. As a consequence of these market conditions, all vehicle segments retrogressed by 5-6 years in terms of production and sales levels. The various lockdowns imposed by the Indian Government in the early half of 2021 affected India significantly. However, it also recorded a robust comeback in June 2021. With the rural and urban demand there was an increase in the domestic dispatches across all vehicle segments, including passenger vehicles, two-wheelers, tractors, and commercial vehicles. Companies that managed to penetrate the rural markets recorded the strongest recovery. At the same time, the shortage of containers and high freight charges affected transportation of components. When compared to pre-COVID sales during the second wave, the passenger vehicles segment recovered the most, followed by tractors, two-wheelers and commercial vehicles. OEMs reduced dealer inventories and linked production with enough inventories to meet customer demand supporting the dealers and channel partners. Going ahead, the Indian Automotive industry – in its post pandemic recovery phase is anticipated to register strong growth in FY 2022-23.

Government Initiatives

The government of India encouraged foreign investment in the automobile sector and allowed 100% Foreign Direct Investment (FDI) under the automatic route. Some of the recent initiatives taken by the government of India are:

- The government aims to develop India as a global manufacturing and R&D hub for automobile sector.
- Under National Automotive Testing and R&D Infrastructure Project (NATRIP), the government of India is planning to set up R&D centres at a total cost of US\$ 388.5 million to enable the industry to be on par with global standards. Under this scheme, five testing and research centres have been established in the country since 2015.
- The Ministry of Heavy Industries, Government of India has shortlisted 11 cities in the country for introduction of electric vehicles (EVs) in their public transport systems under the Faster Adoption and Manufacturing of (Hybrid) and Electric Vehicles in India (FAME) scheme. In February 2019, the government of India had approved the FAME-II scheme with a fund requirement of Rs 10,000 crore (US\$ 1.39 billion) for FY20-22.
- The Automotive Mission Plan 2016-26 (AMP 2026) targets a 4-fold growth in the automobiles sector in India which includes the manufacturers of automobiles, auto components & tractor industry over the next 10 years.

Market Size

The Indian auto-components industry can be broadly classified into the organised and unorganised sectors. The organised sector caters to the Original Equipment Manufacturers (OEMs) and consists of high-value precision instruments while the un-organised sector comprises low-valued products and caters mostly to the aftermarket category.

In order to keep up with the growing demand, several auto makers have started investing heavily in various segments of the industry during the last few months. The industry has attracted Foreign Direct Investment (FDI) worth US\$ 24.62 billion between April 2000 and September 2020, according to the data released by Department for Promotion of Industry and Internal Trade (DPIIT).

Exports

In April 2021 to March 2022, Passenger Vehicle Exports increased from 404,397 to 577,875 units, Commercial Vehicle Exports increased from 50,334 to 92,297 units, Three Wheeler Exports increased from 393,001 to 499,730 units and Two Wheelers Exports increased from 3,282,786 to 4,443,018 units in April 2021 to March 2022 over same period last year.

Opportunities & Threats

We have laid out our new vision —to be the future of mobility. This entails exploring emerging opportunities in the mobility space while continuing to excel in the core mobility segments the Company operates in. Our continued focus on corporate governance and on enhancing the efficiency curve with the use of talent, teamwork and technology will enable us to lead the way for the industry.

Comprehensive efforts were demonstrated across the Company to optimise capacities, investments, and obsolescence across the value chain.

OPPORTUNITIES

India ranks first in the number of road accident deaths across the 199 countries and accounts for almost 11% of the accident related deaths in the World and this becoming a major concern, owing to heavy traffic, poor weather conditions, irresponsible or rash driving. This in turn has increased demand for safety features and adaptive lighting systems. Moreover, the adoption of intelligent, high-resolution LED

headlights allow the driver to take conceivable bend on the road with the aid of sensors to illuminate oncoming traffic. This leads to an essential contribution towards safe driving, reduction in accidents and related risks, especially while driving at night and bad weather conditions. Thus, huge investments by automotive manufacturers in R&D and innovation to develop automotive lighting systems that are compatible with driver assistance systems and proximity sensors increase the demand for automotive lighting systems in the market.

THREATS

Economic factors are perhaps the most crucial factors affecting carsales. They include inflation, rising costs, interest rates, unemployment rates, Gross Domestic Product (GDP), disposable income, and exchange rates. All of these play an important role in determining the number of car sales in a country. This, in turn, also determine the performance of various other industries linked to the Automobile industry, including plastics, steel, aluminum, rubber, computer chips, and more.

No doubt, an environment of fear is eclipsing the industry. But it is equally true that the industry is all set to become

the third-largest in the world by 2025, and globalization is considered auspicious rather than a menace.

Road Ahead

The role of industry bodies and the government could be a critical differentiator in the recovery of the automotive sector. For instance, the government could enhance cost effectiveness in automotive manufacturing by reducing logistics and energy costs. Meanwhile, industry bodies could build on scale by working with Export Promotion Councils to expand India's share in global exports. Sustaining the momentum on the ongoing policy shifts and investing in innovation could assure growth for the entire sector. While these have been testing times, the auto component industry could rebuild by catering to shifting mobility needs and consumer sentiment. Focusing on local manufacturing, investing in innovation and collaboration with the government and automotive industry bodies could ensure that the segment emerges stronger and more resilient, ready to flourish in the next normal.

The rapidly globalizing world is opening up newer avenues for the transportation industry, especially while it makes a shift towards electric, electronic and hybrid cars, which are deemed more efficient, safe and reliable modes of transportation. Over the next decade, this will lead to newer verticals and opportunities for auto-component manufacturers, who would need to adapt to the change via systematic research and development. As per Automobile Component Manufacturers Association (ACMA) forecasts, automobile component exports from India are expected to reach US\$ 80 billion by 2026.

The Indian auto-components industry is set to become the third largest in the world by 2025. Indian auto-component makers are well positioned to benefit from the globalization of the sector as exports potential could be increased by up to US\$ 30 billion by 2022.

Safety first

Our commitment to Environment, Health and Safety (EHS) is integral to our operations. We are focused on creating a safe and enabling working environment at all our manufacturing plants.

Product Wise Performance

All products of the Company come under single primary business segment. Therefore, requirement for analysing segment wise or product wise performance does not arise.

Outlook

The auto component manufacturing industry in India is pegged at 3.5 lakh crore in FY 2018 and the industry is poised to grow 4 times by 2026. However, in the absence of a well-defined road map for the automobile industry, the future of the auto component segment looks bleak with disastrous consequences for many of the players. The

industry will not witness growth if it continues to follow a business as usual scenario.

The possible transition of the automobile industry towards hybrids and electric vehicles will lead to disruption in the overall automotive market landscape which will also influence the product portfolios of auto component manufacturers. The alignment and the pace of this alignment to the anticipated new automotive landscape will be key for auto component manufacturers to stay relevant, survive disruption and grow over the next multiple years.

This alignment will see the rationalization of the product portfolio and even consolidation in different product segments in the auto component manufacturing space. Recent move of Bosch to hive off its starter and generator division to SEG indicates that the company anticipates pressure on the legacy components in the realm of adoption of new technology and also regulatory push to embrace stringent emission norms in the mobility sector.

Thousands of auto component makers and aftermarket, players risk shutting down in the next 8-10 years as they are ill-prepared for a future where new and disruptive technologies like electric vehicles and autonomous or self-driving cars take over the roads. As new ideas and technologies in the automobile sector come to the fore every day, the \$51 billion Indian auto component industry is waiting for the government or one of its agencies to draw up a detailed road map on the future of mobility. Unless there is some clarity on the automakers' technology play in India and the development of the ecosystem that goes along with it through some well-defined policies and notifications, both the auto and component makers will continue to live in a state of uncertainty.

Nearly 50% of the domestic auto component players are either making engine parts or the transmission drive, which will have no place in an electric car, which runs on batteries. There is also a question mark on the kind of batteries that will ultimately survive; whether it will be lithium-ion or something else will depend mostly on the cost of the battery and its safety features.

The CAF norms and BSVI implementation will further push automobile companies to embrace technology that restricts emission and this will pave way for newer technology like ISG and BSG that are likely to replace alternator and generator in the automobile. The mandatory requirement to enhance safety features and premiumization of mass selling cars will also lead to the migration of electrical architecture from 12V to 48V.

Risk and Concerns from the point of view of the organisation

The Company has in place a robust risk management framework that identifies and evaluates business risks and opportunities. The Company recognises that these risks

need to be handled effectively and mitigated to protect the interest of the shareholders and stakeholders, achieve business objectives and create sustainable value and growth. The Company's risk management processes focus on ensuring that these risks are identified promptly and a mitigation action plan is implemented and monitored periodically to ensure that the risks are being addressed accordingly.

Internal Control System and its Adequacy

Your Company has exhaustive internal control systems that are aligned to its business requirements. The Company regularly monitors the risks and has in place focused risk mitigation strategies. Internal and external audit teams continuously monitor the adequacy and effectiveness of the internal control environment across the Company and the status of compliance with operating systems, internal policies and regulatory requirements.

The Internal Auditor reports directly to the Board through Audit Committee. The Internal Auditor has been assigned with the tasks for setting up of Inventory norms, Inventory optimization, scrap reconciliation, common spare management, BOM correction and verification. The Internal Auditor presents to the Audit Committee, the detailed analysis of the tasks assigned to them in every meeting of the Committee. The Audit Committee meets periodically to review the adequacy and efficacy of the internal control systems.

Discussion on Financial Performance with respect to Operational Performance

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India. The financials have been prepared considering the above requirements of applicable laws.

During the financial year 2021-22, revenue from operations was Rs. 47,338.14 lakhs as compared to Rs. 49,092.82 lakhs in 2020-21, registering a decrease in 3.57%.

Despite the challenges posed by the pandemic, the Company adapted to the changing business needs. The state of preparedness and quick countermeasures taken by the Company had started to show improvements, before interest, depreciation and taxes, the Company has achieved operational profit of Rs. 7,544.42 Lakhs in year 2021-22 and Rs. 8,103.24 Lakhs in 2020-21.

ANNEXURE 'B' TO BOARD'S REPORT

REPORT ON CORPORATE GOVERNANCE

Pursuant to Regulation 34 read with Schedule V to the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (hereinafter referred to as "Listing Regulations"), a report on Corporate Governance is given below:

This Report, therefore, states compliance as per requirements of the Companies Act, 2013 and Listing Regulations, as applicable to the Company. As have been seen, the Company's corporate governance practices and disclosures have gone well beyond complying with the statutory and regulatory requirements as stipulated in the applicable laws, including Listing Regulations.

1. COMPANY'S PHILOSOPHY ON CODE OF CORPORATE GOVERNANCE

Corporate governance at Shivam Autotech Limited ("Company") is strongly founded on its core guiding values viz. passion, integrity, respect, courage and responsibility in all its actions, operations and engagement with the stakeholders and society at large. The Company believes that good corporate governance emerges from the application of the best and sound management practices and compliance with the laws coupled with adherence to the highest standards of transparency and business ethics.

Achieving milestones is important for us, but achieving them the right and ethical way is all the more important and essential. Corporate Governance brings direction and control to the affairs of the Company in a fashion that ensures optimum return for stakeholders. Corporate governance is the broad framework which defines the way the Company functions and interacts with its environment. Moreover, Shivam in its journey towards sustainability is integrating sustainability practices in its corporate governance system which goes beyond compliance. The Company is guided by a key set of values for all its internal and external interactions.

Simultaneously, in keeping with the best practices, your Company seeks to execute the practices of corporate governance by maintaining strong business fundamentals and by delivering high performance through relentless focus on the Transparency, Accountability, Professionalism, Trusteeship, working towards sustainable development-environmental and social & Continuous focus on training and development of employees and workers.

The Company also believes that corporate governance has a role to ensure that the Directors of the Company are subject to their duties, obligations, accountability and responsibilities, to act in the best interest of the Company and to remain accountable to the shareholders and other beneficiaries for their corporate actions. The Company also believes that an active, well informed and independent Board is necessary to ensure the highest standard of corporate governance. The Board is responsible for and committed to the sound principles of corporate governance in the Company.

Thus, overall corporate governance norms have been institutionalised as an enabling and facilitating business process at the Board, Management and at all operational levels. The Company has complied with the requirements of Corporate Governance as stipulated under the Listing Regulations, as applicable, the details of which are as under:

2. BOARD OF DIRECTORS

Auditors' Report

To the Members of Shivam Autotech Limited**Report on the Audit of the Financial Statements****Opinion**

We have audited the accompanying financial statements of **Shivam Autotech Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2022, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date and a summary of significant accounting policies and other explanatory information including notes to the financial statements (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, thereof ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022 and its losses, total comprehensive losses, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Emphasis of Matter

We draw attention to:

- i. Note 7 in the financial statements, wherein management has recognized deferred tax assets and minimum alternate tax (MAT) credit entitlement of earlier years which is available to the Company on the assumption that there would be sufficient future taxable profits, for reversal of such deferred tax assets and minimum alternate tax, elaborately explained in the said Note.
- ii. Note 10 in the financial statements, regarding the booking of material consumption and the accounting impact of physical verification of inventories observations, elaborately explained in the said Note.

Our opinion is not modified in respect of the above matters.

Key Audit Matters

Key audit matters (KAM) are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined that there are no key audit matters to communicate in our report.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report and business responsibility report including Annexures to Board's Report and Corporate Governance and Shareholder's information, but does not include the financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this Auditor's Report. Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially

inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibilities for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive losses, changes in equity and cash flows of the Company in accordance with accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, thereof.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if,

individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work

and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.

Annexure A to the Independent Auditor's Report to the members of Shivam Autotech Limited on its financial statements dated May 30, 2022.

Report on the matters specified in paragraph 3 of the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of section 143(11) of the Companies Act, 2013 ("the Act") as referred to in paragraph 1 of 'Report on Other Legal and Regulatory Requirements' section.

To the best of our information and according to the explanations provided to us by the Company and the books of account and records examined by us in the normal course of audit, we state that:

- i. (a) (A) The Company has maintained proper records showing full particulars including quantitative details and situation of property, plant and equipment and relevant details of right-of use assets.
 - (B) The Company has maintained proper records showing full particulars of intangible assets.
- (b) The property, plant and equipment and right-of use assets have been physically verified by the management according to the programme of periodical verification in phased manner which, in our opinion, is reasonable having regard to the size of the company and the nature of its property, plant and equipment. The discrepancies, if any, noticed on such physical verification have been properly dealt with in the books of accounts.
- (c) According to the information and explanation given to us and on the basis of our examination of the records of the Company, the title deed of immovable properties are held in the name of the company.
- (d) The Company has not revalued its property, plant and equipment (including right-of use assets) and intangible assets during the year.
- (e) There are no proceedings initiated or are pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.
- ii. (a) In our opinion and according to the information and explanations given to us, the management has conducted physical verification of inventory [including inventory lying with third parties] at reasonable intervals during the year. The coverage and the procedure of such verification by the management is appropriate. Discrepancies of 10% or more in aggregate were noticed in finished goods Rs.281.33 Lakhs and semi-finished goods Rs.321.93 lakhs and Other Scrap of Rs.234.65 lakhs on such physical verification and have been properly dealt with in the books of account.
- (b) As disclosed in note 17.1 to the financial statements, the Company has been sanctioned working capital limits for more than Rs. five crores in aggregate from banks and/or financial institutions during the year on the basis of security of current assets of the Company. The quarterly returns/statements filed by the Company with such banks and financial institutions are in agreement with the books of accounts of the Company
- iii The Company has not made any investment, provided any security or guarantee or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms and limited liability partnership or to any other parties. Accordingly, reporting under clause 3 (iii) (a) to (f) of the Order are not applicable to the Company.

“Annexure B” to the Independent Auditor’s Report to the members of Shivam Autotech Limited (‘the Company’) on its financial statements dated May 30, 2022.

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”) as referred to in paragraph 1(f) of ‘Report on Other Legal and Regulatory Requirements’ section

We have audited the internal financial controls over financial reporting of **Shivam Autotech Limited** (“the Company”) as of March 31, 2022 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Management and Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the “Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India”. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting of the Company based on our audit.

We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our Qualified audit opinion on the Company’s internal financial controls system over financial reporting with reference to these financial statements.

Meaning of Internal Financial Controls over Financial Reporting

A Company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company’s internal financial control over financial reporting includes those policies and procedures that:

- a) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- b) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- c) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Qualified Opinion

According to the information and explanations given to us and based on our audit, the following material weakness have been identified in the operating effectiveness with reference to its financial statements as at March 31, 2022:

- i. The Company's internal control system in respect of supervisory and review controls over process of booking of material consumption, booking of proper inventory and accounting of returnable gate pass, reconciliation of old stock lying with third party and allocation of fixed and variable overheads on product costing on periodical basis were not operating effectively during the current financial year to arrive at the correct value of stock including physical number, which could potentially result in material misstatement of cost of goods sold and inventories as on March 31, 2022.

In view of this lack of control the management has conducted physical verification of inventories as on March 31, 2022 and has also done reconciliation of consumption etc. so that they are able to arrive at the correct value of inventories and cost of goods sold as on March 31, 2022.

- ii. The Company's internal control weakness has been observed in respect of approval of expenses/ reimbursement of expenses and payment to the vendors/employees were not operating effectively and due to deficiency in the control, the company has made some excess payment to vendors/employees of the company however as confirmed by management these payments were subsequently been approved by the management of the company.
- iii. The Company's internal control system in respect of credit facility monitoring and proper review and follow up procedure for the realisation of trade receivables are not operating effectively due to which some of the

Company's trade receivables have become doubtful. The Company has initiated legal proceeding against some of the old doubtful trade receivables and has also made adequate provision for expected credit losses based on assessment of these overdue trade receivables.

A 'material weakness' is a deficiency, or a combination of deficiencies, in internal financial control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis.

In our opinion, the Company has, in all material respects, maintained adequate internal financial controls over financial reporting with reference to these financial statements as of March 31, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India, and except for the possible effects of the material weakness described above on the achievement of the objectives of the control criteria, the Company's internal financial controls over financial reporting with reference to these financial statements were operating effectively as of March 31, 2022.

Explanatory paragraph

We have also audited, in accordance with the Standards on Auditing issued by ICAI, as specified under Section 143(10) of the Act, the financial statements of the Company, which comprise the balance sheet as at March 31, 2022, and the statement of profit and loss, statement of changes in equity and cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory information. This material weakness was considered in determining the nature, timing, and extent of audit tests applied in our audit of the March 31, 2022 financial statements of the Company and this report does not affect our report dated May 30 2022, which expressed an unmodified opinion on these financial statements.

The description of the nature and purpose of each reserve within equity is as follows:

- Retained earnings represents undistributed profits of the Company which can be distributed to its equity shareholders in accordance with the requirement of the Companies Act, 2013.
- Capital redemption reserve was created consequent to redemption of preference share capital, as required under the provisions of the Companies Act, 1956. This reserve shall be utilised in accordance with the provisions of Companies Act, 2013.
- Other Comprehensive Income (OCI) represent the balance in equity for items to be accounted in OCI. OCI is classified into (i) items that will not be reclassified to statement of profit and loss, and (ii) items that will be reclassified to statement of profit and loss.
- General reserve represents the statutory reserve, this is in accordance with Indian corporate law wherein a portion of profit is appropriated to general reserve. Under the erstwhile Companies Act, 1956, it was mandatory to transfer the amount before a company can declare a dividend, however under the Companies Act, 2013, transfer of any amount to general reserve is at the discretion of the company.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2022

(All amounts are in lakhs unless otherwise stated)

1 Corporate Information

Shivam Autotech Limited (the 'Company') was established in the year 1999, and was initially known as Munjal Auto Components till July, 2005. The Company got converted to a separate Public Limited Company w.e.f. 29th July, 2005. In pursuant to the scheme of Demerger & arrangement, the Gurgaon Unit was transferred to Shivam Autotech Limited on 1st August, 2005. The Company has been engaged in the manufacturing of Near-Net- Shaped, auto transmission components mainly for Original Equipment Manufacturers (OEMs). The product range includes various types of transmission gears, transmission shafts, spline shafts, plunger, power train components, and employing cold/warm/hot forging techniques. The Company has four state-of-the-art manufacturing facilities, located at Gurrgram, Haridwar, Bengaluru & Rohtak. The Company is listed on the National Stock Exchange and Bombay Stock Exchange of India. These financial statements are presented in Indian Rupees (Rs.).

2 Basis of preparation

a) Statement of compliance

The Financial Statements have been prepared in accordance with Indian Accounting Standards (IND AS) as prescribed under Section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) (Amendment) Rules, 2016 and relevant provisions of the Companies Act, 2013. The Financial Statements comply with IND AS notified by Ministry of Company Affairs ("MCA"). The Company has consistently applied the accounting policies used in the preparation for all periods presented.

These financial statements are approved and adopted by board of directors of the Company in their meeting held on Monday, 30 May 2022

b) Basis of preparation

The financial statements have been prepared accrual basis on historical cost convention, except as stated otherwise.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

c) Functional and presentation currency

The financial statements are presented in Indian National Rupee ('INR'), which is the Company's functional currency. All amounts have been rounded to lakhs upto two decimal places, unless otherwise indicated.

d) Operating cycle

All Assets and Liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of services provided and time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

e) Use of judgments and estimates

In preparing these financial statements, management has made judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, the disclosures of contingent liabilities and contingent assets at the date of financial statements, income and expenses during the period. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognized prospectively.

Application of accounting policies that require critical accounting estimates and assumption judgments having the most significant effect on the amounts recognized in the financial statements are:

- Measurement of defined benefit obligations;
- Recognition of deferred tax assets & MAT credit entitlement;
- Useful life and residual value of Property, plant and equipment and intangible assets;
- Impairment test of financial and non-financial assets;
- Recognition and measurement of provisions and contingencies;
- Fair value measurement of financial instruments;

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2022

(All amounts are in lakhs unless otherwise stated)

3 Significant Accounting Policies

The Company has consistently applied the following accounting policies to all periods presented in the financial statements.

a) Property, plant and equipment

i) Recognition and measurement

Items of property, plant and equipment are measured at cost, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, and any directly attributable cost of bringing the asset to working condition for its intended use.

General and specific borrowing costs directly attributable to the construction of a qualifying asset are capitalized as part of the cost.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment. The cost of replacing part of an item of property, plant and equipment or major inspections performed, are recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The costs of all other repairs and maintenance are recognized in the statement of profit & loss as incurred.

Capital work-in-progress includes cost of property, plant and equipment under

installation / under development as at the balance sheet date. Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets.

An item of property, plant and equipment is derecognized when no future economic benefit are expected to arise from the continued use of the asset or upon disposal. Any gain or loss on disposal of an item of property, plant and equipment is recognized in statement of profit or loss.

Subsequent Expenditure

Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the company and the costs of the item can be measured reliably. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the Property, Plant and Equipment and the resultant gain or losses are recognized in the statement of profit and loss.

ii) Depreciation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values, and is recognized in the statement of profit and loss. Depreciation on property, plant and equipment is provided on Straight Line Method at the rates determined on the basis of useful life of the assets as prescribed in Schedule II of the Companies Act, 2013.

	Useful Life as per Schedule II of Companies Act 2013 (in years)
- Plant & Machinery	15
- Plant & Machinery- (Furnace)*	
- Buildings	30
- Computers	3
- Office equipment	5
- Furniture & fixtures	10
- Vehicles	8
- Lease hold Improvements	Amortised over the period of lease

Depreciation on additions to or on disposal of assets is calculated on pro-rata basis i.e. from (upto) the date on which the property, plant and equipment is available for use (disposed off).

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2022

(All amounts are in lakhs unless otherwise stated)

Property, Plant and Equipment individually costing below Rs. 5,000 are fully depreciated during the year they are put to use.

*Change in life of Plant & Machinery (Furnace) from 15 Years to 25 Years w.e.f. 01st April, 2021

b) Intangible assets

i) Recognition & measurement and amortization

Intangible Assets are recognized, if the future economic benefits attributable to the assets are expected to flow to the company and cost of the asset can be measured reliably. All other expenditure is expensed as incurred. The same are amortized over the expected duration of benefits. Such intangible assets are measured at cost less any accumulated amortization and impairment losses, if any and are amortized over their respective individual estimated useful life on straight line method.

The estimated useful lives are as follows:

Computer Software 4 years

The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period and adjusted prospectively, if appropriate.

Intangible assets are tested for impairment when there are indications that the carrying value may not be recoverable. All impairment losses are recognised immediately in profit or loss.

An item of intangible asset is derecognised when no future economic benefit are expected to arise from the continued use of the asset or upon disposal.

Any gain or loss on disposal of an item of intangible assets is recognized in statement of profit or loss.

c) Impairment of non-financial assets

At each reporting date, the Company reviews the carrying amounts of its non-financial assets (other than deferred tax assets) to determine whether there is any indication on impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets that do not generate independent cash flows are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or Cash Generating Units ('CGUs').

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognized in the statement of profit and loss.

In respect of assets for which impairment loss has been recognized in prior periods, the company reviews at each reporting date whether there is any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

After impairment, depreciation is provided on the revised carrying amount of the assets over its remaining useful life.

d) Financial instruments

i) Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at **fair value of the consideration received or receivable**. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2022

(All amounts are in lakhs unless otherwise stated)

ii) Subsequent measurement

(i) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. When the financial asset is derecognized or impaired, the gain or loss is recognized in the statement of profit and loss.

(ii) Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in profit and loss.

When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to profit and loss. Equity instruments are subsequently measured at fair value. On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI (designated as FVOCI – equity investment). This election is made on an investment by investment basis. Fair

value gains and losses recognized in OCI are not reclassified to profit and loss.

(iii) Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

(iv) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

iii) Impairment of financial assets

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each reporting period. The Company recognizes a loss allowance for expected credit losses on financial asset. In case of trade receivables, the Company follows the simplified approach permitted by Ind AS 109 – Financial Instruments for recognition of impairment loss allowance. The application of simplified approach does not require the Company to track changes in credit risk. The Company calculates the expected credit losses on trade receivables using a provision matrix on the basis of its historical credit loss experience.

iv) Derecognition

Financial Assets

Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2022

(All amounts are in lakhs unless otherwise stated)

If the company enters into transactions whereby it transfers assets recognized on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognized

Financial liabilities

The company derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire.

v) **Reclassification of financial assets and financial liabilities**

The company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The company does not restate any previously recognized gains, losses (including impairment gains or losses) or interest.

vi) **Derivative financial instruments**

The Company uses derivative financial instruments, such as forward currency contracts to hedge its foreign currency risks. Derivative financial instruments are initially recognized at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value at the end of each period. The

method of recognizing the resulting gain or loss depends on whether the derivative is designated as a hedging instrument, and if so, on the nature of the item being hedged. Any gains or losses arising from changes in the fair value of derivatives are taken directly to statement of profit or loss.

vii) **Offsetting**

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the company has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

e) **Fair value measurement**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using other valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

Fair values for measurement and/ or disclosure purposes are categorized into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 - This includes financial instruments measured using quoted prices.

Level 2 - The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2. Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. Derived from prices).

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2022

(All amounts are in lakhs unless otherwise stated)

Level 3 - If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

f) Provisions, Contingent Liabilities and Contingent Assets

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Contingent Liability is disclosed after careful evaluation of facts, uncertainties and possibility of reimbursement, unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent liabilities are not recognized but are disclosed in notes. Contingent assets are not disclosed in the financial statements unless an inflow of economic benefits is probable.

g) Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

i) Sale of goods-

Sales is accounted for upon dispatch of goods from the factory when the risks and rewards of ownership are transferred to the buyer.

Ind AS 115 provides for a five step model for the analysis of Revenue transactions. The model specifies that revenue should be recognised when (or as) an entity transfer control of goods or services to a customer at the amount to which the entity expects to be entitled. Further the standard requires enhanced disclosures about the nature, amount, timing, and uncertainty of revenue and cash flows arising from the entity's contracts with customers.

Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services.

ii) Dividends

Dividend is recognized when the shareholders' right to receive payment is established by the balance sheet date.

iii) Insurance claim

Claims lodged with the insurance companies are accounted on accrual basis to the extent these are measurable and ultimate collection is reasonably certain.

iv) Interest Income

Interest income is recognised on time proportion basis taking in to account the amount outstanding and the rate applicable.

v) Government Grant & Subsidies

Grant/subsidies is recognised when there is reasonable assurance the Grant/subsidy will be received and all attaching condition will be complied with.

h) Employee Benefits

i) Short term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

ii) Defined contribution plans

Employees benefits in the form of the Company's contribution to Provident Fund, Family Pension scheme and Employees State Insurance are defined contribution schemes. The Company recognizes contribution payable to these schemes as an expense, when an employee renders the related service.

If the contribution payable exceeds contribution already paid, the deficit payable is recognized as a liability (accrued expense),

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2022

(All amounts are in lakhs unless otherwise stated)

after deducting any contribution already paid. If the contribution already paid exceeds the contribution due for service before the end of the reporting period. The Company recognize that excess as an asset (prepaid expense) to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund.

iii) Defined benefit plans

Retirement benefits in the form of gratuity are considered as defined benefit plans. The Company's net obligation in respect of defined benefit plans is calculated by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The company provides for its gratuity liability based on actuarial valuation of the gratuity liability as at the Balance Sheet date, based on Projected Unit Credit Method, carried out by an independent actuary. The Company contributes to the gratuity fund, which are recognized as plan assets. The defined benefit obligation as reduced by fair value of plan assets is recognized in the Balance Sheet.

When the calculation results in a potential asset for the company, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurement of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in Other Comprehensive Income. Net interest expense (income) on the net defined liability (assets) is computed by applying the discount rate, used to measure the net defined liability (asset), to the net defined liability (asset) at the start of the financial year after taking into account

any changes as a result of contribution and benefit payments during the year. Net interest expense and other expenses related to defined benefit plans are recognized in statement of profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in statement of profit or loss. The company recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

iv) Other long-term employee benefits

Employee benefits in the form of long term compensated absences are considered as long term employee benefits. The Company's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value. Remeasurements are recognized in profit or loss in the period in which they arise.

The liability for long term compensated absences are provided based on actuarial valuation as at the Balance Sheet date, based on Projected Unit Credit Method, carried out by an independent actuary.

i) Valuation of inventories

- i) Finished goods are valued at lower of cost or net realizable value. Scrap is valued at net realizable value. cost includes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity. cost of Finished goods includes excise duty.
- ii) Work in progress is valued at raw material cost including proportionate production overheads.
- iii) Stores, spares and raw materials are valued at lower of cost or net realizable value. However materials & other items held for use in the production of inventories are not written below cost if the finished products in which they will be incorporated are

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2022

(All amounts are in lakhs unless otherwise stated)

expected to be sold at or above cost. cost of purchases is assessed on first in first out (FIFO) method.

- iv) Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

j) Foreign Exchange Transactions / Translations / Hedge Accounting

Standalone financial statements have been presented in Indian Rupees (₹), which is the Company's functional and presentation currency.

- Initial recognition

Foreign currency transactions are recorded on initial recognition in the functional currency, using the exchange rate at the date of the transaction.

- Conversion

Foreign currency monetary items are retranslated using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction. Non-monetary items, which are measured at fair value or other similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.

- Exchange differences

The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognized in OCI or profit or loss are also recognized in OCI or profit or loss, respectively).

k) Borrowing costs

Borrowing costs are interest and other ancillary costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. General and specific borrowing costs

attributable to acquisition and construction of any qualifying asset (one that takes a substantial period of time to get ready for its designated use or sale) are capitalized until such time as the assets are substantially ready for their intended use or sale, and included as part of the cost of that asset. All the other borrowing costs are recognized in the Statement of Profit and Loss within Finance costs of the period in which they are incurred.

l) Income tax

Income tax expense comprises current and deferred tax. It is recognized in profit or loss except to the extent that it relates to items recognized directly in equity or in Other Comprehensive Income

i) Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year after taking credit of the benefits available under the Income Tax Act and any adjustment to the tax payable or receivable in respect of previous years. It is measured using tax rates enacted or substantively enacted at the reporting date. Current tax assets and liabilities are offset only if, the Company:

- a) has a legally enforceable right to set off the recognized amounts; and
- b) intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

ii) Deferred tax

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying values of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognized for all taxable temporary differences. In contrast, deferred tax assets are only recognized to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilized.

The carrying value of deferred tax assets is reviewed at the end of each reporting period

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2022

(All amounts are in lakhs unless otherwise stated)

and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realized based on the tax rates and tax laws that have been enacted or substantially enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to cover or settle the carrying value of its assets and liabilities.

Deferred tax assets and liabilities are offset only if:

- i) The entity has a legally enforceable right to set off current tax assets against current tax liabilities; and
- ii) The deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

Deferred tax assets include Minimum Alternate Tax (MAT) paid in accordance with the tax laws in India, which is likely to give future economic benefits in the form of availability of set off against future income tax liability. MAT is recognized as deferred tax assets in the Balance Sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with the asset will be realized.

m) Segment Reporting

The Company's operating businesses are organized and managed separately according to the nature of products manufactured and services provided, with each segment representing a strategic business unit that offers different products. The analysis of geographical segments is based on the areas in which major operating divisions of the Company operate. The reportable segments have been identified based on the significant components of the enterprise for which discrete financial information is available

and are reviewed by the Chief operating decision maker (CODM) to assess the performance and allocate resources to the operating segments. Refer Note -39.

n) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand and short-term deposits with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

o) Cash flow statement

Cash flows are reported using the indirect method as explained in the Accounting Standard on Statement of Cash Flows (Ind AS - 7), whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

p) Ind AS - 116 Lease

Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to Company's operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances. After considering current and future economic conditions, the company has concluded that no changes are required to lease period relating to the existing lease contracts.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2022

(All amounts are in lakhs unless otherwise stated)

The Company as a lessee

The Company's lease asset classes primarily consist of leases for buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate

cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are re-measured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option. Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

The Company as a lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases. When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately. The sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease. For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease.

q) Earning per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

r) Government grants

Government grants are recognized at fair value when there is reasonable assurance that the

grant would be received and the Company would comply with all the conditions attached with them. Government grants related to PPE are treated as deferred income (included under non-current liabilities with current portion considered under current liabilities) and are recognized and credited in the Statement of Profit and Loss on a systematic and rational basis over the estimated useful life of the related asset and included under

“Other operating income”. Government grants related to revenue nature are recognized on a systematic basis in the Statement of profit and loss over the periods necessary to match them with the related costs which they are intended to compensate and are adjusted with the related expenditure. If not related to a specific expenditure, it is taken as income and presented under “Other operating income”.

Notes:-

- Lease hold improvements have been amortised over the period of the lease.
- Refer note no. 39 for charges.
- Impairment Review**

Assets are tested for impairment whenever there are any internal or external indicators of impairment. Impairment test is performed at the level of each Cash Generating Unit ('CGU') or groups of CGUs within the Company at which the assets are monitored for internal management purposes, within an operating segment. The impairment assessment is based on higher of value in use and value from sale calculations. During the year, the testing did not result in any impairment in the carrying amount of other assets. The measurement of the cash generating units' value in use is determined based on financial plans that have been used by management for internal purposes. The planning horizon reflects the assumptions for short to- mid-term market conditions.

Key assumptions used in value-in-use calculations are:-

- Operating margins (Earnings before interest and taxes), (ii) Discount Rate, (iii) Growth Rates and (iv) Capital Expenditure
- All Immovable Properties are held in the name of the company.
- During the year the management has reassessed the life of the furnace 15 to 25 Years based on the technical evaluation and due to the same the depreciation for the year is reduced by Rs. 55.90 Lakhs.

Net Deferred tax Assets/ (Liability)	3,335.15	354.56	(20.40)	3,669.31

Significant management judgement is considered in determining provision for income tax, deferred tax assets and liabilities and recoverability of deferred tax assets. The recoverability of deferred tax assets and Minimum Alternate Tax (MAT) entitlement is based on estimate of the taxable income for the period over which deferred tax assets will be recovered. The Company has unabsorbed business depreciation and MAT credit which according to the management will be used to set off taxable profit arising in subsequent years from operation. However, As a matter of prudence, Deferred Tax Assets including MAT Credit entitlement have been restricted to Rs.3,669.31 Lakhs created till March 31, 2021.

40 Financial Risk Management

Financial risk management objectives and policies:

The Company, as an internationally active supplier for the automobile industry expose its business and products to various market risks, credit risk and liquidity risk. The Company realizes that risks are inherent and integral aspect of any business. The primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The Company's senior management oversees the management of these risks and devise appropriate risk management framework for the Company. The senior management provides assurance that the Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives.

Below notes explain the sources of risks in which the Company is exposed to and how it manages the risks:

A Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. The Company is exposed to the risk of movements in interest rates, inventory price and foreign currency exchange rates that affects its assets, liabilities and future transactions. The Company is exposed to following key market risks:

a) Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of the financial instruments will fluctuate because of changes in market interest rates. The Company's main interest rate risk arises from long-term borrowings with variable rates, which exposes the Company to cash flow interest rate risk. During March 31, 2022 and March 31, 2021, the Company's borrowings at variable rate were mainly denominated in INR.

Interest rate risk exposure - The exposure of the Company's borrowing to interest rate changes at the end of the reporting period are as follows:

Particulars	As at 31st March, 2022	As at 31st March, 2021
Variable Rate Borrowing	26,959.46	38,644.88
Fixed Rate Borrowing	11,208.95	9,454.88
Ind as Adjustment	(44.78)	(24.97)
Total	38,123.64	48,074.79

An analysis by maturities is provided in Note (C) Maturities of financial liabilities below.

Sensitivity analysis - For Floating rate liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year.

Sensitivity on variable rate borrowings	Impact on Profit & Loss Account	
	For the year ended 31-03-2022	For the year ended 31-03-2021
Interest rate increase by 0.25%	67.40	96.61
Interest rate decrease by 0.25%	(67.40)	(96.61)

b) Price Risk

Fluctuation in commodity price in global market affects directly and indirectly the price of raw material and components used by the Company in its various products segment. Substantial pricing pressure from major OEMs to give price cuts and inability to pass on the increased cost to customers may also affect the profitability of the Company.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2022

(All amounts are in lakhs unless otherwise stated)

Key Raw material - As per the agreement with the customers, any increase in the raw material prices is passed on to the customer. But in some cases where the customer was already asking for reduction in prices, the company has to absorb the price increase.

c) Foreign Currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an foreign exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's export revenue and import of raw materials and other consumables.

The unhedged foreign currency exposure is as follows:

B Credit risk:

Credit risk is the risk that a counter party will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables and advances to suppliers) and from its financing activities, including deposits and other financial instruments

The Company has developed guidelines for the management of credit risk from trade receivables. The Company's primary customers are major Indian automobile manufacturers (OEMs) with good credit ratings. Non-OEM clients are subjected to credit assessments as a precautionary measure, and the adherence of all clients to payment due dates is monitored on an on-going basis. An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogeneous groups and assessed for impairment collectively. The calculation is based on historical data. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note 44. The Company does not hold collateral as security except in case of few customers. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets.

Particulars	As at 31st March, 2022			As at 31st March, 2021		
	Upto 6 months	More than 6 months	Total	Upto 6 months	More than 6 months	Total
Gross carrying amount (A)	7,540.20	1,483.98	9,024.17	6,193.88	1,168.16	7,362.04
Expected Credit Losses (B)		733.64	733.64		623.64	623.64
Net Carrying Amount (A-B)	7,540.20	750.34	8,290.53	6,193.88	544.52	6,738.40

Credit risk from balances with banks and other financial asset is managed in accordance with the Company's approved investment policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. Counterparty credit limits are reviewed on regular basis and the said limits gets revised as and when appropriate. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments. The Company has deposited liquid funds at various banking institutions. Primary banking institutions are major Indian and foreign banks. In long term credit ratings these banking institutions are considered to be investment grade. Also, no impairment loss has been recorded in respect of fixed deposits that are with recognised commercial banks and are not past due.

C Liquidity risk:

The liquidity risk encompasses any risk that the Company cannot fully meet its financial obligations. To manage the liquidity risk, cash flow forecasting is performed in the operating divisions of the Company and aggregated by Company finance. The Company's finance monitors rolling forecasts of the Company's liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities / overdraft facilities at all times so that the Company does not breach borrowing limits or covenants (where applicable) on any of its borrowing facilities.

A - Company has opted to fair value its mutual fund investment through profit & loss

B - Company has opted to fair value its quoted investments in equity share through OCI

C - As per Para D-15 of Appendix D of Ind AS 101, the first time adopter may chose to measure its investment in subsidiaries, JVs and Associates at cost or at fair value. Company has opted to value its investments in subsidiaries, JVs and Associates at cost.

D - Company has adopted effective rate of interest for calculating Interest. This has been calculated as the weighted average of effective interest rates calculated for each loan. In addition processing fees and transaction cost relating to each loan has also been considered for calculating effective interest rate.

* In case of trade receivables, cash and cash equivalents, trade payables, short term borrowings and other financial assets and liabilities it is assessed that the fair values approximate their carrying amounts largely due to the short-term maturities of these instruments.

Fair value hierarchy

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices). The fair values of the financial assets and financial liabilities included above have been determined in accordance with generally accepted pricing models based on a discounted cash flow analysis, with the most significant inputs being the discount rate that reflects the credit risk of counterparties

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

42 Capital Management

For the purpose of the Company's capital management, equity includes issued equity capital and all other equity reserves attributable to the equity shareholders and net debt includes interest bearing loans and borrowings less current investments and cash and cash equivalents. The Company's objectives when managing capital is to safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders, and maintain an optimal capital structure to reduce the cost of capital.

The Company manages its capital structure and makes adjustments in light of changes in economic & financial conditions and the requirements of the financial covenants. The funding requirement is met through a mixture of equity, internal accruals, long term borrowings and short term borrowings. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2022

(All amounts are in lakhs unless otherwise stated)

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. During the year the Company has breached with these covenants. During the year lenders has imposed the penalties towards non-fulfillment of the covenants as per the loan agreements and the same has duly been accounted in financial statements wherever charged by the lenders.

No changes were made in the objectives, policies or processes for managing capital during the year ended 31st March, 2020 and 31st March, 2021.

43 Impact of COVID

The spread of Covid 19 during different waves has affected the business operations post the notional lock down. The Company has taken various measures in consonance with Central and State Government advisories to contain the pandemic, which included closing of manufacturing facilities.

Given the uncertainty of quick turnaround to normalcy, post lifting of the lock down, the Company has carried out a comprehensive assessment of possible impact on its business operations, financial assets, contractual obligation and its overall liquidity position, based on the internal and external sources of information and application of reasonable estimates. The Company does not foresee any significant incremental risk to the recoverability of its assets or in meeting its financial obligations over the foreseeable future, given early and required steps taken to contain, protect and mitigate the exposure.

Pursuant to the relaxed guidelines, the Company has now resumed its operations, however, some of the staff continues to operate from home. Since the situation is continuously evolving, the impact assessed in future may be different from the estimates made as at the date of approval of these financial results. Management will continue to monitor any material changes arising due to the impact of this pandemic on financial and operational performance of the Company and take necessary measures to address the situation.

- 44 The Indian Parliament has approved the Code on Social Security, 2020 which would impact the contributions by the Company towards Provident Fund and Gratuity. The Ministry of Labour and Employment has released draft rules for the Code on Social Security, 2020 on November 13, 2020, and has invited suggestions from stakeholders, which are under active consideration by the Ministry. The Company will assess the impact and its evaluation once the subject rules are notified and will give appropriate impact in its financial statements in the period in which, the Code becomes effective and the related rules to determine the financial impact are published.
